DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) that was submitted on 12/12/2003 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statement.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Perry et al. (5,015,184). Perry et al. discloses an evacuator tube tip guard.

Regarding claims 1-8, Perry et al. discloses cannula system comprising a cannula (12) including a terminus and lumen therethrough, a dispersion nozzle (10) at the terminus of the cannula including a plurality of curved vanes (20,22) with blunted edges that are divergent from one another and are capable of directing flow through the nozzle tip in a substantially hemispherical flow profile to increase the cross sectional. Perry et al. further includes a collar (14) having a passage therethrough wherein a linking arch (24) bisects the vanes (Figures 1-4).
